

RELEASE NOTES: GSA GAT Protocol v4.2

This document identifies the components and information in the GSA GAT Protocol that have been clarified, extended, or deprecated between v4.1 and v4.2. Refer to the "marked_up" version of the protocol PDF (included in the protocol package), which highlights the specific changes.

GSA Administrative

GSA Management decided to relocate the Categorization of Standards section previously shown in the About This Document chapter. Going forward this information will be available on the GSA website. Changes to the standard referenced to GSMP-2037 are included on the website.

About This Document Chapter

1. About This Document
 - a. Categorization of Standards. Updated the categorization of this standard to Recommended. GSMP-2037
